TECHNOLOGY

THERMO TWIN SKIN TTS[®] TECHNOLOGY

COASTO is not launching “just another” SUP brand. After studying all the components and methods of iSUP construction, we have gathered SUP rider's feedbacks, engineers and technicians and kept only the best; this is the genesis of TTS Technology.

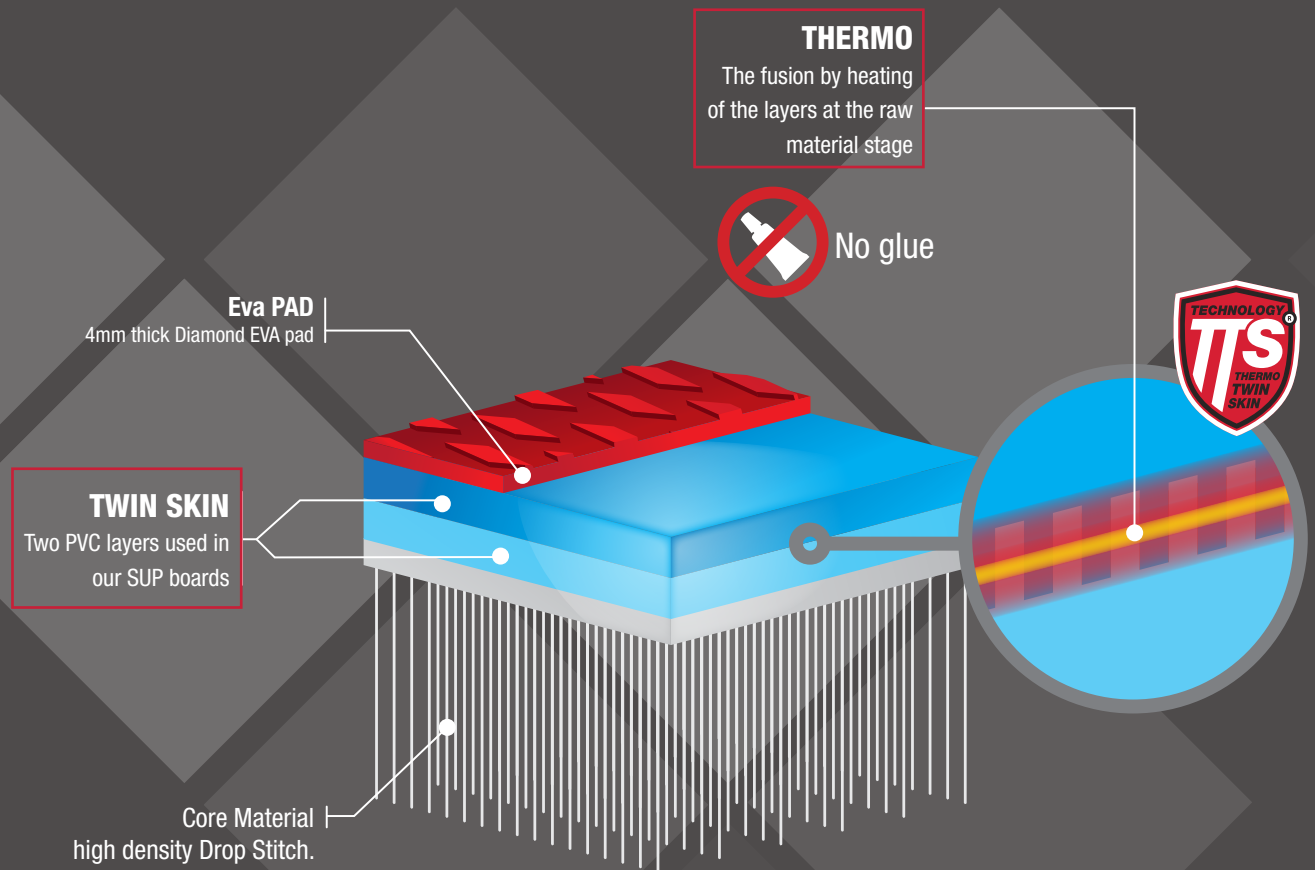

This deep study firstly lead us to the evidence that double layers was the most advanced technology on the market. Boards built with two PVC layers are much stiffer and more durable than entry-lines single layer boards.

However, we have also found many feedbacks denouncing some imperfection of the double layers iSUP which are too heavy and might create some esthetical imperfections such as bubbles or pleats.

COASTO kept the best component – Drop Stitch Density, laminated PVC material - of the top boards tested, but was not convinced by the current two layers technology, so we investigated on how to improve it. Results lead us to the fact that all these imperfections are caused by one factor: gluing the second PVC layer to the single layer iSUP boards.

Then, together with manufacturers, we re-thought the double layer constructions and find a specific way to eliminate the trouble maker: abusive use of glue.

The new methodology resides in welding by heating the two PVC layers of the board at the raw material stage, limiting the use of the glue for the double layer rail only.

This is how Thermo Twin Skin TTS[®] Technology was born :

THERMO

for the fusion by heating of the layers at the raw material stage

TWIN SKIN

for the two PVC layers used in our SUP boards

COASTO'S TTS[®] TECHNOLOGY: MAIN ADVANTAGES

LIGHTER

Boards are developed on average surfaces of 2,2 – 2,8 square meters. Important quantity of heavy glue is needed to cover this surface. By removing the glue, boards are 20 to 25% lighter!

HIGH END LOOK

Gluing the two layers can cause some visual imperfections, such as bubbles, pleats or blemishes, when glue is not well spread. Boards built with TTS[®] are smoother and have perfect finishes.

MORE DURABLE

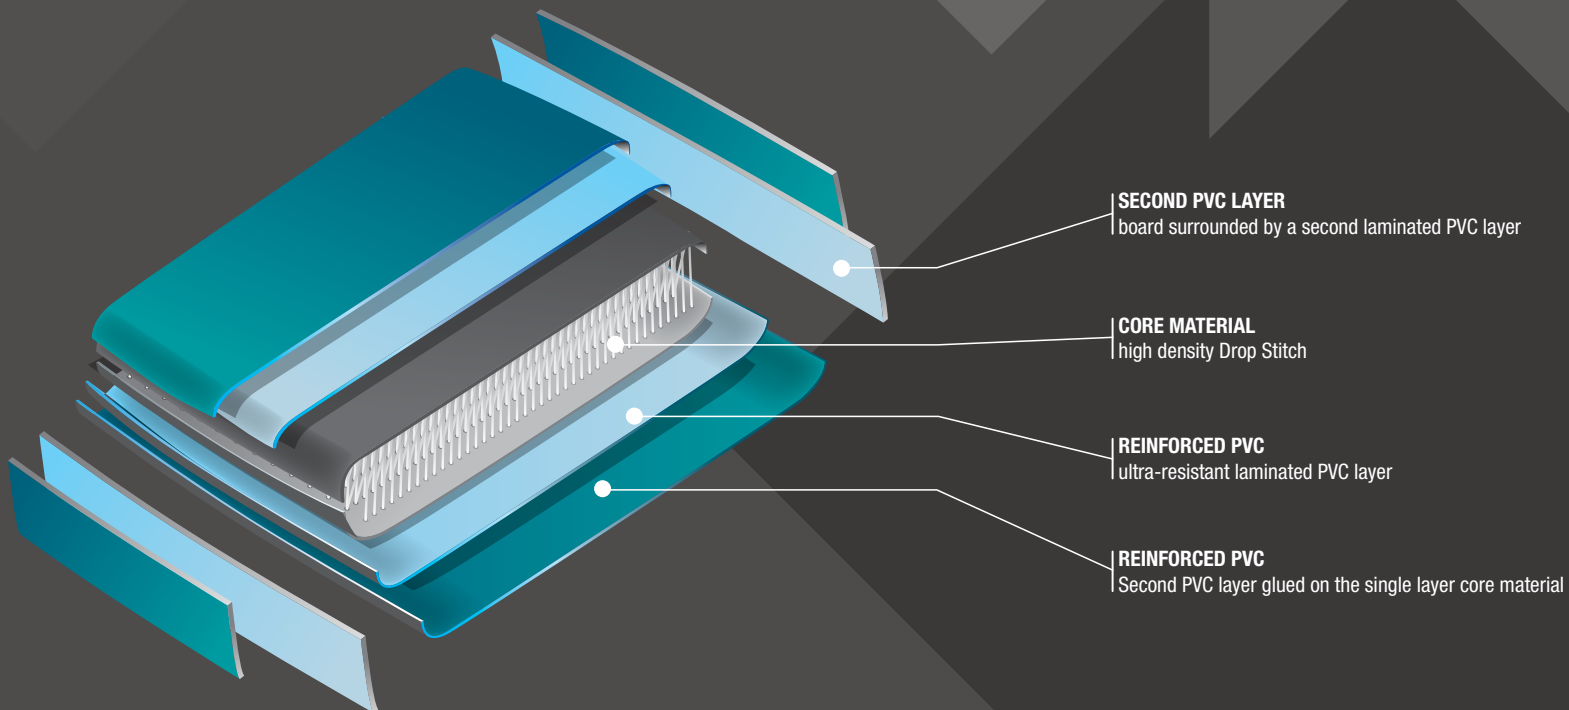

On long terms, these same imperfections can lead to take offs. Avoiding glue offers a more qualitative board for many years.

STIFFER

Welding the two PVC layers at the raw material stage offer a super-stiff surface that even start to offer great rigidity from 10 PSI. COASTO suggests pumping the board up to 15 PSI and guarantee an extra-stiffness feeling, specially for high-volume boards

ECO-FRIENDLY

Paddle boarding creates an incredible connection between nature and paddlers. Riding a board which uses very limited quantity of glue is also an eco-friendly gesture

INCLUDED ACCESSORIES

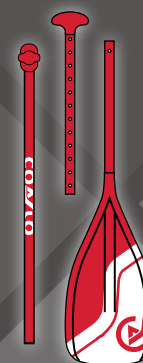

PROFESSIONAL iSUP BACKPACK

COASTO backpack has been specially designed for adventurers. This compact bag – 95 x 40 x 25cm – has padded handles and extra-compartments to ease your travels. This is the perfect companion to storage all your SUP package and even more: deflated iSUP board, pump, 3 sections paddle and optional leash, swimsuit, towel or even folded dry bag.

HIGH PRESSURE PUMP

SUP pump with ergonomic handle for easy pumping. The pump features a gauge so that you can keep an eye on the pressure in psi or bar as you pump.

3-PIECE PADDLE

3 Sections adjustable paddle: durable and qualitative thanks to its extra-thick aluminum, this paddle can be dismantled into 3 pieces and easily storage in COASTO backpack. Adjustable from 165 to 215cm with graduations, this paddle floats and beneficiate from professional SUP blade with efficient angle.

COILED LEASH

The use of a leash is highly recommended; that way you'll stay attached to your SUP board whatever happens. A coiled leash with an ultra-comfortable neoprene ankle attachment is included in this package.

HIGH PRESSURE PUMP

SUP pump with ergonomic handle for easy pumping. The pump features a gauge so that you can keep an eye on the pressure in psi or bar as you pump.

EVASION 7

A FUN ACTIVITY

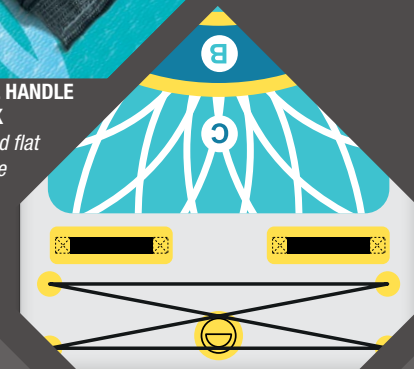

The Evasion 7 is inflated like a paddle. Designed to be easily attached between two water lines thanks to the attachment kit, it is quick to install. This educational mat has been specially designed to use unequal balance.

GRADUATED EXERCISE AREA
clear instructions and better placement on the board

VALVE AND CENTRAL HANDLE AT THE BACK
keep a smooth and flat exercise at the front

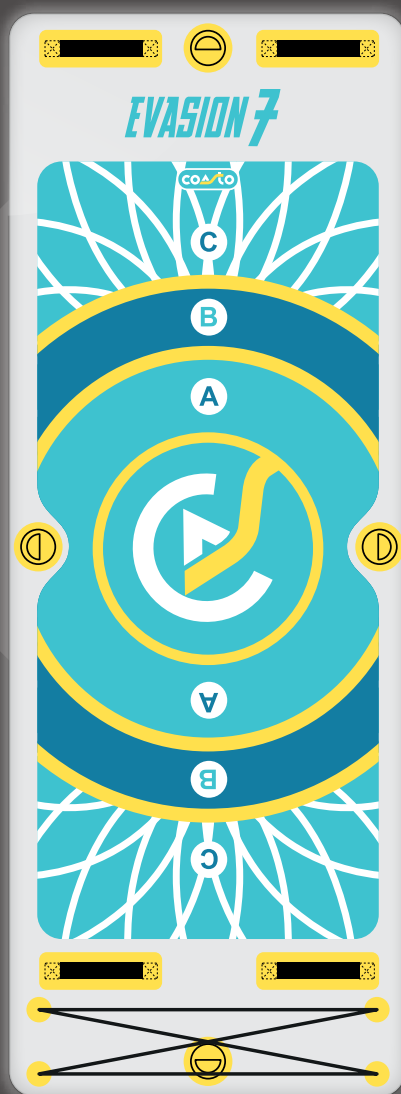

ELASTIC BUNGEE
hold your exercise stuff (towel, bottle..)

ULTRA-SMOOTH EVA PAD
enjoy a unique bare-foot comfort for all your exercises

FLOATING SWIMMING POOL MAT

EVASION

Fitness mat: Yoga, Fitness and fun in flat waters

Imagine yourselves working out on your own platform in flat water. COASTO Evasion offers you an inflatable platform for unique working out experience. This brand new trend, launched in France in 2013, allows you to combine different fitness exercises while working on your balance. You will like its non-slip covering in

soft EVA for user comfort, as well as its extra-large width (86cm) that gives its excellent stability, even for complex yoga postures. Thanks to its many rings, Evasions board can interlock with each other and allow multiple configurations or be held to the edge.

ACCESSORIES

DRYBAG

Stand Up Paddle is a thrilling sport that'll make you want to spend hours on the water. Our Dry Bags are made of marine PVC (500D Tarpaulin) to give you all the strength and durability you need. These waterproof bags come in four sizes, 20L, 40L, 60L and 90L, allowing you to keep your gear dry.

MATERIAL	500D tarpaulin
AVAILABLE SIZES	20L / 40L / 60L / 90L
SPECIFICITIES	Carry handle strap

KAYAK SEAT

The great thing about Stand Up Paddling is that it's a lot of fun and it's accessible to so many people. COASTO pushes the awesomeness of this sport even further by giving paddlers a way to turn their SUP into a genuine kayak with a comfortable seat and foot braces that can be rigged up all the Skiffo boards.

SPORTABLE

Take your Smartphone everywhere you go. The Sportable keeps it dry during your SUP sessions. Strap it to your arm or sling it around your neck. Don't worry about wipe-outs: the Sportable floats thanks to its air pocket. In the Sportable, your smartphone'll stay safe and sound wherever you may take it!
