AQUABIKING, WITHOUT A POOL

OBJECTIVE :

*This ultra-compact aquabiking pool is a global solution to create a new area dedicated to **Aquatic Fitness** and **Wellness**. Offer a **new activity** to boost your frequency and make sure your health club stands out from the rest.*

*By doing so you can offer your members an **additional activity** without the need for a complex and expensive pool management.*

FITNESS & WELLNESS POOL

- Removable Above ground pool
- Ultra-compact motor unit with a water filtration and heating system completed with a bubble generator.
- Ultra rigid panel structure with foam insulation.
- Includes one aquabike HappyBike

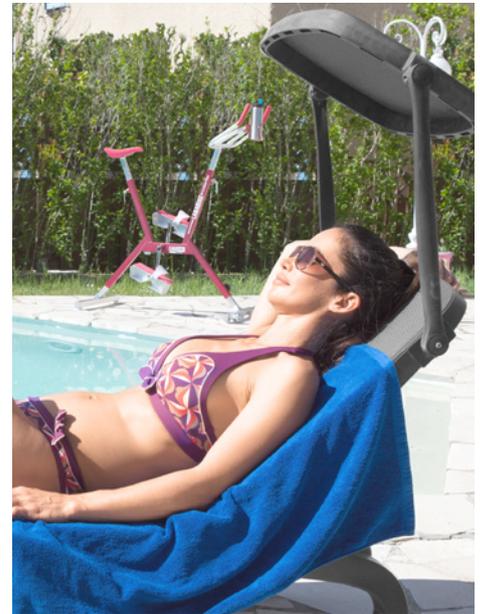

Health club

This concept allows you to offer **aquafitness** without a swimming pool. A chance to offer a **new activity** without high investments.

Physiotherapy center

Try a **new therapeutic tool** to offer **aquatic rehabilitation** to your clients and diversify your services.

Private pool

If you want to do **your own workout all year round in the confort of your home**, you will enjoy the **Fit's Pool**. Designed for you to be **easy to use** and to create your **personal fitness center**.

3.4_{m²}

Minimum floor space

This new concept is easily assembled without tools and provides enough space for a simultaneous aquabike workout for **two people**. Its optimal dimensions mean that you will be quite at ease during your aquabike or aqua-training session all with external overall dimensions that measure just

1.84m per side.

In fact, not much bigger than a double bed!

Ultra compact
184 x 184 x 127 cm

A colourful session
Chromotherapy
thanks to adjustable
LED lights.

Optimum volume
With loading
of 1100 kg/m²
assuming a water volume
of 3630 L

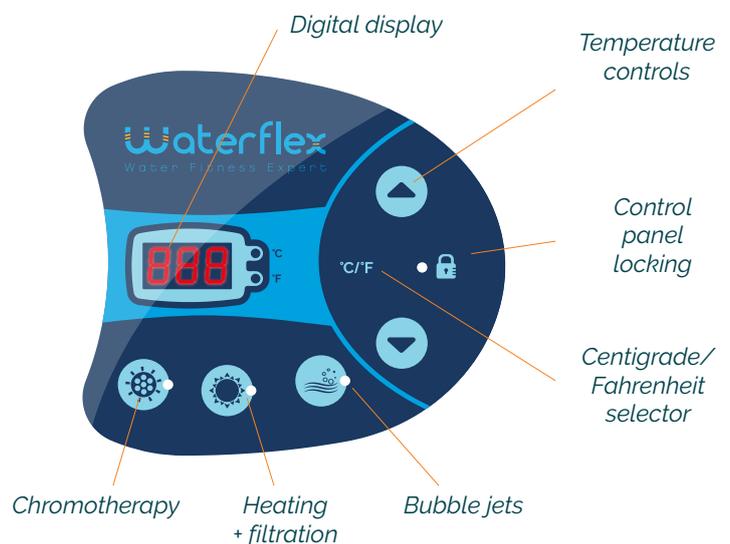

Easy entry and exit
Thanks to secure
stainless steel ladder with
non-skid platform and steps

Total safety
Thanks to its lockable
buckle system, the cover is a
real protection.

All-in-one motor unit
4 available functions:
• heating
• filtration
• bubble jets
• chromotherapy

SIMPLY INGENEIOUS!

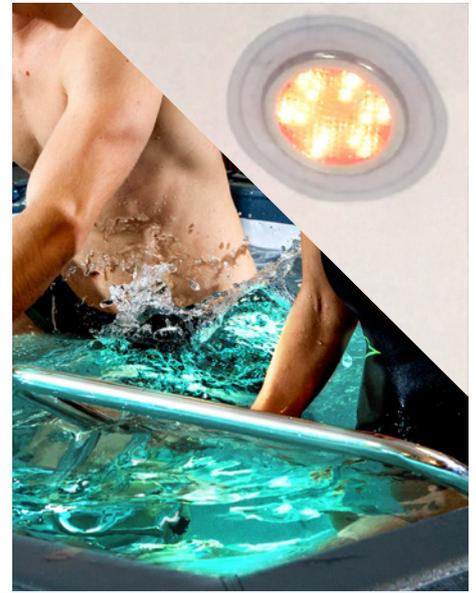

Heating

Programmable up to 42°C, the 1500 W heating system, integrated in the motor, allows a rapid increase in temperature, while its automatic mode limits your power consumption.

Relaxation

The integral bubble generator sends relaxing bubbles all around the pool.

Chromotherapy

Add a touch of colour to your sport or wellness session thanks to the integrated lighting.

Filtration

The 60 W filtering motor of the Fit's Pool has the latest generation filter cartridge, which can be washed and re-used.

To make maintenance even easier, the motor warns you when the cartridge needs to be cleaned or changed.

Depending on use (public or private) a single treatment with active oxygen or chlorine may be necessary to ensure that the water remains clean and clear.

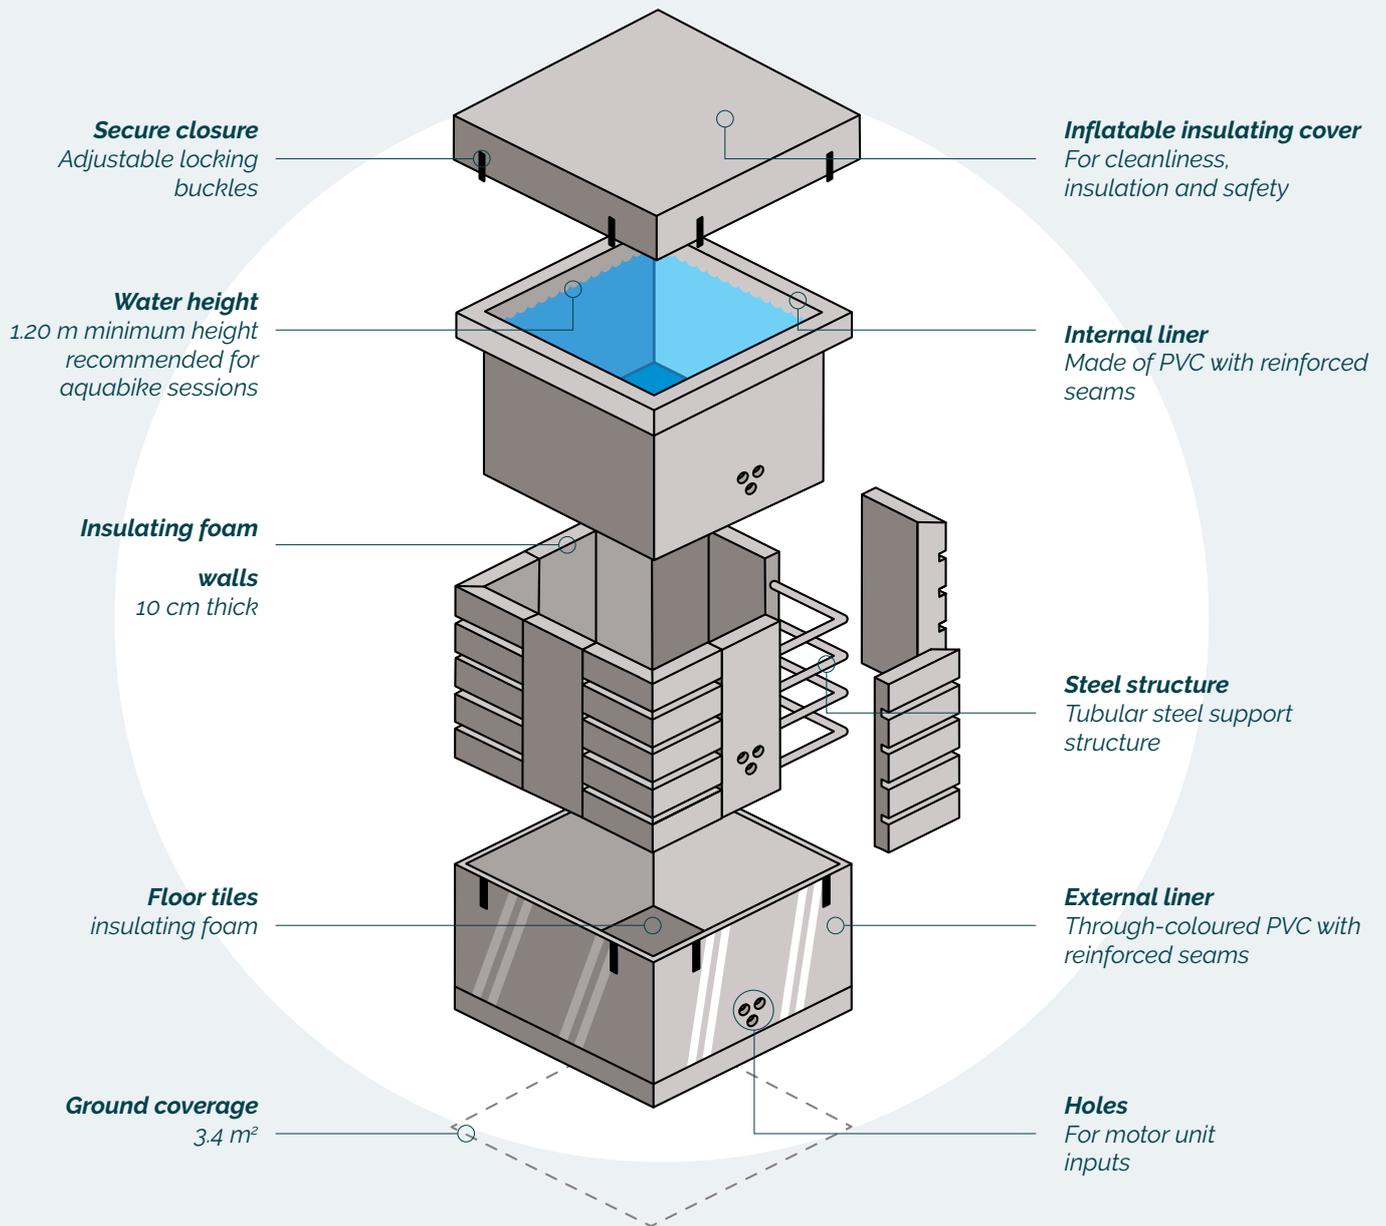

Insulating cover

In addition to its foam insulation structure, the Fit's pool is supplied with an inflatable cover that completely covers the pool to prevent any loss of heat or change in water quality.

The cover is equipped with 8 straps and locking buckles to prevent unauthorised pool access.

SPECIFICATIONS	
Materials	Reinforced PVC liner + steel structure and polystyrene
External pool dimensions	L 184 x W 184 x H 128 cm
Water volume	3630 L
Water height	120 cm
Net weight	70 kg
Power supply	230 VAC 50Hz
Heating	1500 W
Filtration pump	60 W
Warranty	2 years except spare parts
Reference	WX-FITSPOOL

EASY ASSEMBLING

The Fit's Pool has a modular structure comprising high-density insulating foam side panels which give it outstanding rigidity and strength.

Configuring your Fit's Pool

Alone or as a couple, you can put up to 2 equipments of your choice inside the Fit's Pool. You can adapt it to your needs by selecting in the Waterflex range.

The HappyBike© is the ideal bike for cardio-training and lymphatic drainage for lighter-feeling legs. Its overall weight and stainless steel structure make the aquabike ideal for the Fit's Pool.

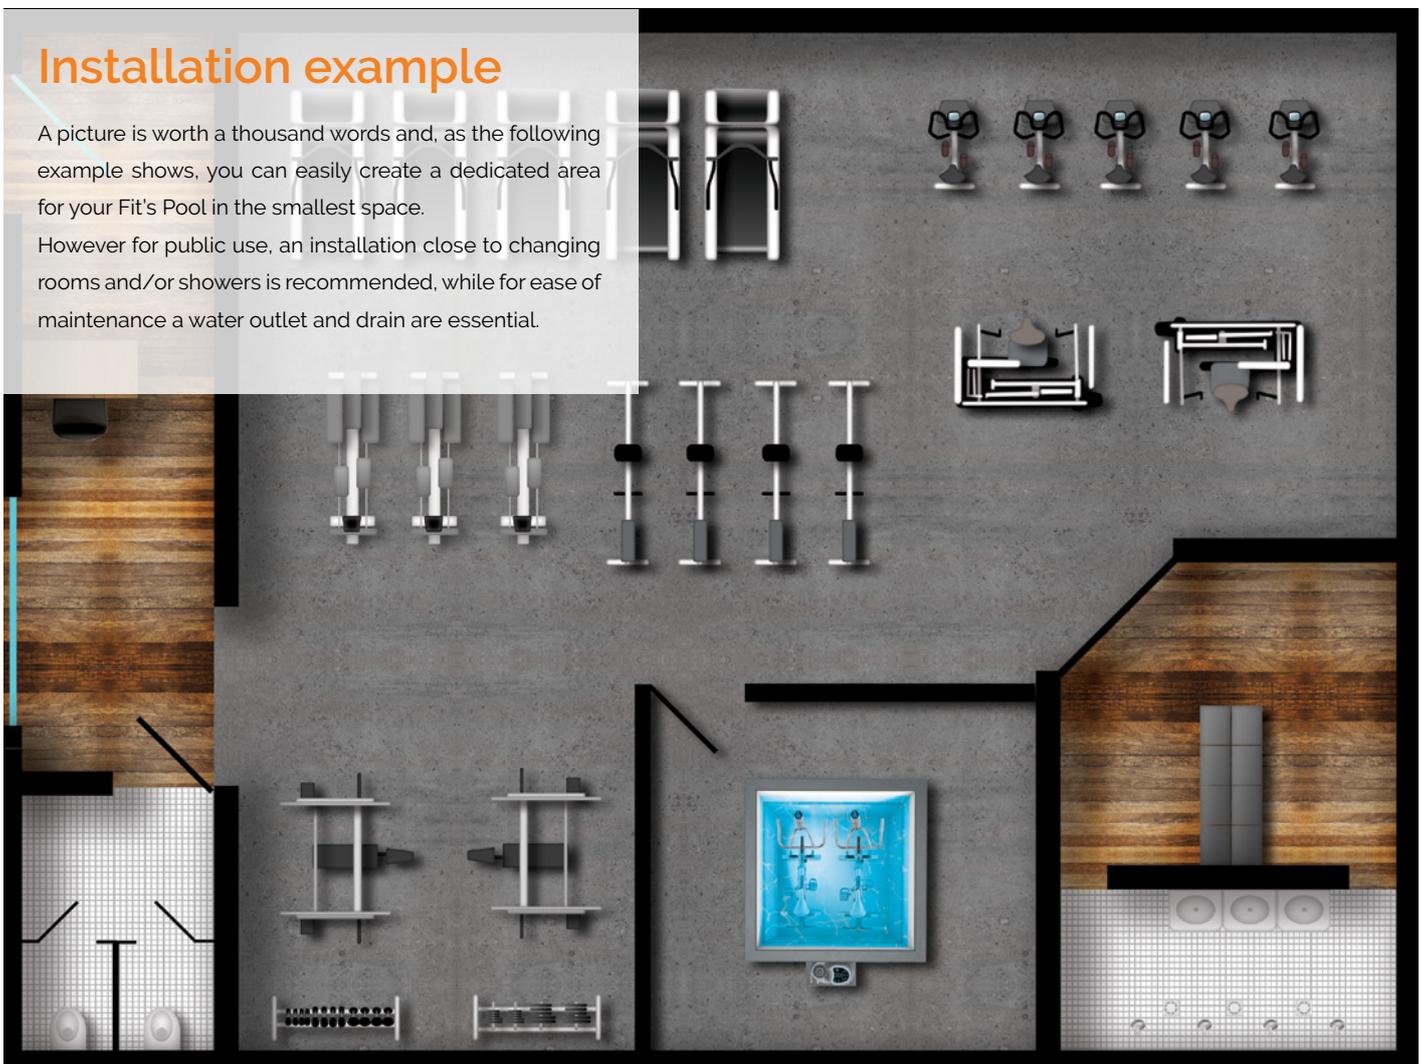

And to complete your muscle work-out, you can go for a jog on our Aquajogg© treadmill.

Select an adjustable resistance with a sport aquabike such as the Falcon© to perform a complete training session.

Installation example

A picture is worth a thousand words and, as the following example shows, you can easily create a dedicated area for your Fit's Pool in the smallest space.

However for public use, an installation close to changing rooms and/or showers is recommended, while for ease of maintenance a water outlet and drain are essential.
