

**WX-TRAMP
PREMIUM**

New style of grip favoring the rebound

JUMPING BAREN OPTION

Possible to change the elastics quickly and easily

Reinforced et doubled seams for greater durability

AQUATIC TRAMPOLINE
WX TRAMP PREMIUM

Aqua Jumping

BOUNCING WITH PLEASURE

The aquatic trampoline can be used for rehabilitation, aqua-training or as a family activity. It allows you to obtain greater movement coordination, balance and improved physical condition.

The alveolar jumping mat WX tramp was selected to ensure the best possible bounce, thanks to a smoother movement of water. These **technical fibres** offer durability, permeability and use with bare feet.

The WX Tramp is available in two versions, round and hexagonal. The hexagonal version is specially designed to take up **minimum space** in small pools and is easily stacked for storage.

FEATURES

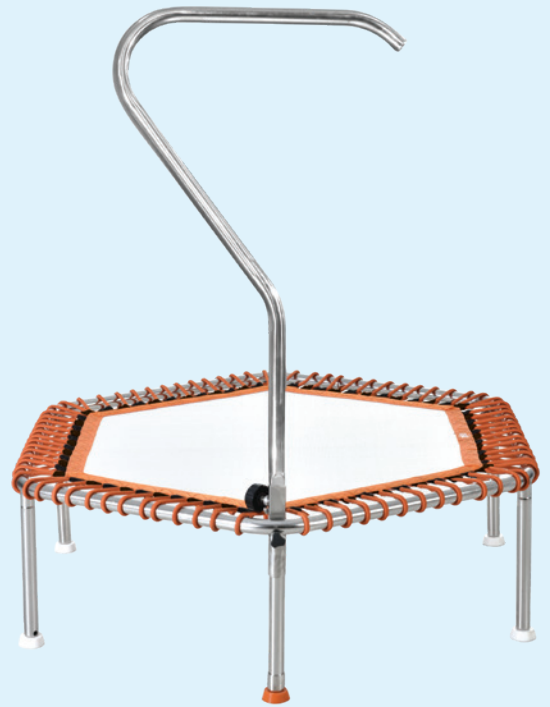

- Alveolar jumping mat
- Inox structure in AISI 304
- Silicone stabilizers
- Reinforced seams
- Great stability
- Individual elastics

Elastic straps for water utilisation

stabilisers with silicone non-slip suction

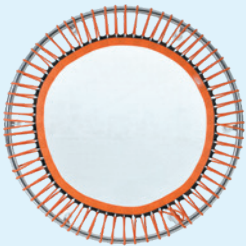

OPTIONAL ACCESSORIES

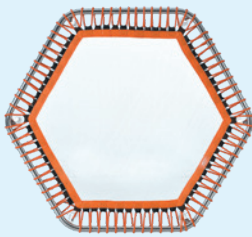

This optional stabilisation bar is ideal to help beginners and increase the difficulty level for advanced users.
